Desired Job

Professor in Computer Science at High School "TARGET"

Education

- **2005 | School of Informatics & Computing Certificate, specialization in Programming**
  Indiana University Bloomington

- **English – Mother tongue**
  French - Fluent written and spoken

Practical Training

2005 - Software development based on Java language - IT Indiana

Skills

- Communication - Very good communication, team spirit.
- Planning/Organizing - My degree project required work to a tight deadline, researching in local archives and managing a database.
- Teamwork - Worked as part of a team on a busy ward, sometimes under great pressure. Here flexibility and initiative were essential.
- Training - Helped other students at University improve their Java programming abilities.
